## CaPP

An aqueous concentrate micronutrient for foliar application to top and soft fruit

### CONTENTS

Calcium:	4% w/v (5.7% as CaO)
Nitrogen:	4% w/v
Phosphorus:	31% as P2O5

### DESCRIPTION

Headland CaPP contains a formulated blend of calcium, nitrogen and phosphorus for application to top and soft fruit.

Application of these nutrients has been shown to improve the quality and keeping qualities of fruit, and reduce the incidence of physiological storage disorders.

### RATES AND TIMES OF APPLICATION

Apples and Pears:	10 litres/ha in 500 l/ha of water. Apply up to 8 applications per season at 10-14 day intervals beginning at petal fall. For enhancement of red colouration in apples, apply when the apples begin to change colour (2-3 weeks pre-harvest) and repeat 7 days later.
Cherries and plums:	10 l/ha in 500-1000 l/ha of water. Apply up to 5 applications per season at 7-14 day intervals beginning at petal fall.
Raspberries:	10 litres/ha in 500 l/ha water. Apply at the start of flowering and repeat at the end of flowering and during fruit development. 10 l/ha in 500 l/ha of water
Strawberries:	Apply at the start of flowering and make 2 further applications at 10-14 day intervals. On 'ever-bearing' cultivars, apply 5 l/ha six times at not less than 10-14 day intervals.

Best results will be obtained from applications made in the evening or early morning. Do not apply in very strong sunlight or at temperatures above 25°C.

### COMPATIBILITY

Do not tank-mix Headland CaPP with any other product

### MIXING

Half-fill the sprayer tank and begin agitation. Slowly add the required amount of Headland CaPP and complete the filling. Maintain agitation throughout the spraying operation and do not allow the mixture to stand idle without agitation. Clean sprayers thoroughly after use.

### STORAGE

Keep dry and cool in a suitable chemical store. Do not store in direct sunlight.

**PROTECT FROM FROST** – store above 5°C

**CORROSIVE** 'Corrosive – causes burns'

### PRECAUTIONS

S2	Keep out of reach of children
S24/25	Avoid contact with skin and eyes
S26	In case of contact with eyes rinse immediately with plenty of water and seek medical advice
S28	After contact with skin, rinse immediately with plenty of water
S36/37/39	Wear suitable protective clothing, suitable gloves and eye/face protection
S45	In case of accident or if you feel unwell seek medical advice (show the label where possible)

**Net Contents 10 litres**

**Packed in cartons of 2 x 10 litres**
