Net Contents: 10 Litres
Packed in cartons of 2 x 10 litres

Vertex Hi-N is a high nitrogen content foliar fertiliser containing additional micronutrients to give a balanced foliar feed. It is especially useful in periods when crop is growing rapidly or where crops have been subject to adverse weather conditions, stress or crop damage.

WARNING: This product should not be swallowed or inhaled. May cause mild skin and eye irritation. Avoid contact with skin or eyes.

FIRST AID: If swallowed DO NOT induce vomiting. For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. If splashed in eyes, wash out immediately with water.

PERSONAL PROTECTION: Avoid skin and eye contact and inhalation of spray mist. When mixing or applying wear waterproof gloves, eye protection, boots and overalls. DO NOT eat, drink or smoke while using. Wash splashes of concentrate from skin immediately. Remove protective clothing and wash hands and face thoroughly before meals and after work. Wash protective clothing daily after work.

STORAGE: Store in original container, tightly closed and in a dry, cool area away from direct sunlight and foodstuffs. Protect from frost, store above 5 °C.

DISPOSAL: Triple rinse empty container and add rinsate to the spray tank. If recycling, discard cap and deliver clean container to an Agrecovery depot. Alternatively crush and bury in a suitable landfill. Dispose of product only by using according to the label, or at an approved disposal facility.

MATERIAL SAFETY DATA SHEET: Additional information is listed in the MSDS available from Zelam Ltd or www.zelam.com.

Not classified according to the HSNO Act 1996.

RECOMMENDED APPLICATION RATES AND TIMINGS

Brassicas: Apply at any time after 3 true leaves when the crop is growing actively Apply 4.5 l/ha in at least 200 litres of water.

Cereals: From first node GS31 to ear emergence GS51. Do not apply repeat applications within 3 weeks. Apply 3 l/ha in at least 200 litres of water.

Grassland: Apply 3 l/ha in at least 200 litres of water .

Oil seed rape: Apply from stem extension and post flowering. Do not apply during flowering. Apply 3 l/ha in at least 200 litres of water.

Potatoes: Apply initially when leaves meet in the row, timing the last with the final blight spray. Apply 3 l/ha in at least 200 litres of water.

If necessary the rate of application may be increased to 4.5 l/ha on cereals, grassland, oilseed rape and potatoes on healthy well-established crops and under good growing conditions.

APPLICATION:

Do not spray in very bright sunshine or in temperatures above 25°C. Spray in the early morning or late evening when a certain amount of moisture is present in the plant for best results. Do not apply more than 9 l/ha during the season. This is best applied as 2 or 3 applications as necessary. Avoid overlapping spray bout widths.

MIXING:

Shake the container well before use. Half fill the spray tank with clean water, begin agitation and add the required quantity of Vertex Hi-N. Add the rest of the water and apply without delay. Maintain agitation whilst traveling to work and throughout the spraying operation. Rinse out container thoroughly, empty rinsings into the spray tank and dispose safely. Do not re-use containers. The addition of Headland Guard 2000 at 0.1% w/v (200ml/200litre water) is recommended to improve spray retention.

COMPATIBILITY:

Vertex Hi-N is physically compatible with most spray applied agricultural chemicals. Consult your supplier for the latest information. Alternatively, up-to-date compatibility information may be found on our web-site at www.headland-ag.co.uk Read the label of the partner product carefully before mixing with Vertex Hi-N .

NOTICE TO BUYER: The manufacturer and vendors of Vertex Hi-N warrant the formulation to contain the specified active ingredients within accepted tolerance but make no warranty of any kind on the uses of material and accept no responsibility, whether the material is used in accordance with the label directions or not.
